

DARPA Releases BAA for Disinformation Campaign Prevention Effort | Executive Gov

By Brenda Marie Rivers

November 5, 2020

The Defense Advanced Research Projects Agency (DARPA) has issued a broad agency announcement to identify potential sources of technologies and techniques to help the government combat disinformation campaigns.

DARPA said in a notice posted Oct. 26th on the beta SAM website that the Influence Campaign Awareness and Sensemaking (INCAS) effort seeks to help analysts identify and track geopolitical influence campaigns that spread misinformation and false narratives through online channels. [...]
