Conspiracy theorist David Icke’s lies about COVID-19 caused Facebook, Twitter, YouTube, and Spotify to ban him. But on Amazon, Icke, who believes in the existence of lizard people, is recommended reading.

Despite being filled with misinformation about the pandemic, Icke’s book *The Answer* at one point ranked 30th on Amazon.com’s bestseller list for Communication & Media Studies. Its popularity is partly thanks to the e-commerce giant’s powerful recommendation algorithms that suggest *The Answer* and other COVID conspiracy theory books to people searching for basic information about the coronavirus, according to new research shared exclusively with BuzzFeed News.
