

The Coronavirus Disinformation System: How It Works | [bellingcat](#)

By Bellingcat Investigation Team

March 26, 2020

Besides viruses, what else is terribly contagious? Lies, of course.

As the coronavirus pandemic engulfs the world, disinformation associated with the virus has taken on many forms. Whether it's your uncle sending you a Tom Hanks meme at 4 a.m. or the current occupant of the White House lying about Barack Obama supposedly harming the CDC's testing system — disinformation in a time like this only adds confusion to an already palpable sense of fear.
