COVID-19 misinformation is going viral — help stop the spread | Poynter

By Katy Byron

April 2, 2020

> You might feel scared or confused about what is *actually* happening with the coronavirus. You are probably reading a lot of conflicting information online. One thing we can all do right now to help each other is to **stop spreading misinformation**. It creates more panic and we are all stressed out enough as it is.
>
> It's also dangerous. If you share something that is misleading or inaccurate and others act on it, you could be putting their lives at risk.
>
> [...]
