

# Exclusive: Twitter takes aim at climate misinformation during COP26 | Axios

By Sara Fischer

November 2, 2021

Twitter on Monday said it will be making authoritative information about climate change more accessible to users during this year's [United Nations COP26 climate summit](#).

**Why it matters:** It's the latest tech giant to take aim at climate misinformation, expected to be more prevalent during the [global conference](#), which brings together leaders from around the world to discuss the climate crisis.
