## Exclusive: Twitter takes aim at climate misinformation during COP26 | Axios

By Sara Fischer November 2, 2021

Twitter on Monday said it will be making authoritative information about climate change more accessible to users during this year's <u>United Nations COP26 climate summit</u>.

**Why it matters**: It's the latest tech giant to take aim at climate misinformation, expected to be more prevalent during the <u>global conference</u>, which brings together leaders from around the world to discuss the climate crisis.
