

Farm Supply Stores Are Running Short on a Horse Dewormer/Pseudoscience COVID Cure | Slate

By Sofia Andrade

August 12, 2021

Folks who are skeptical of masks and vaccines but still believe in COVID have turned to a variety of pseudoscience tools since the start of the pandemic, including bleach, UV rays, and ... livestock dewormer. The latter, the antiparasitic ivermectin, is lauded by some as a panacea to a pandemic that has killed upward of 4 million people around the globe—and you can find it at your nearest farm supply store.

[...]
