

Information ecosystem and troubled democracy | OID

By Observatory on Information and Democracy

January 15, 2025

This inaugural meta-analysis provides a critical assessment of the role of information ecosystems in the Global North and Global Majority World, focusing on their relationship with information integrity (the quality of public discourse), the fairness of political processes, the protection of media freedoms, and the resilience of public institutions.

The report addresses three thematic areas with a cross-cutting theme of mis- and disinformation:

- Media, Politics and Trust;
- Artificial Intelligence, Information Ecosystems and Democracy;
- and Data Governance and Democracy.
