

Job Opening | Lecturer in Computer Science | University of Surrey

By University of Surrey

May 6, 2020

The Department of Computer Science at the University of Surrey is seeking to appoint **one lecturer** to continue to support its ambitious strategic growth in student numbers, strengthening of its research directions and collaborations with industry.

We are looking to attract a talented individual who will inspire, lead, and make a significant impact in their research and to the student experience.

We are looking to appoint a lecturer in one or more of the following areas: machine learning, cloud computing, distributed systems, programming-languages principles, and the intersection of security and AI, which are already areas of research within the Department. We are also particularly interested in candidates who have experience in Internet data science, edge networks, social computing and DevOps security, in order to expand our research in new directions.
