

Job Opportunity: ARTT Research Coordinator, Analysis and Connection | Hacks/Hackers

August 18, 2022

Hacks/Hackers is looking for a Project Research Coordinator to help us wrangle research communications and resources for a software prototype aimed at helping users engage in conversations on complicated topics, such as around vaccine efficacy. More information about the project, called the Analysis and Response Toolkit for Trust (ARTT), can be found [here](#). ARTT is a 2021 cohort member of the National Science Foundation Convergence Accelerator program.
