Job Opportunity: Six Open-Rank Tenure-Track Faculty Positions | Syracuse University: School of Information Studies

By Syracruse University

February 2, 2021

> Syracuse University's School of Information Studies (the iSchool, ischool.syr.edu) invites applications for scholars to fill six open-rank tenure-track faculty positions to start in Fall 2021. Successful candidates will demonstrate a history of or strong potential for sustained research excellence in an information-related field and will contribute to the development of students and courses in our degree programs in information systems, data science and data analytics, library and information science and information science and technology.
>
> The successful candidates will join our "Faculty of One": a highly collegial environment that values interdisciplinary collaboration among our school's faculty and with other members of the university and beyond. Our research and teaching often adopt a socio-technical approach, recognizing that important problems are not simply technical nor just about people, but rather require both social and technological insights. We seek applicants whose topic areas and skills adopt this philosophy, and who can speak to overlapping areas within the school.
>
> We are specifically seeking applicants with interests in the following areas, broadly construed:
>
> [...]
