

Job Opening | Antitrust Research Scholar – Stanford University

By Stanford University

October 29, 2019

The Program on Democracy and the Internet seeks a full-time Antitrust Research Scholar with experience and interest in antitrust law and a specific focus on the technology sector.

One of the most important policy issues surrounding modern digital platforms like Google, Facebook, and Amazon is their sheer scale. Depending on how one defines the market they are operating in (search, online advertising, or online retailing), their market share gives them dominance not just in the United States, but in many other countries as well. This has both economic and political consequences.
