

Kamala Harris misinformation on Facebook and Twitter worries experts | Vox

By Rebecca Heilweil

August 17, 2020

Within hours of Joe Biden announcing that he had selected Kamala Harris as his presidential running mate, conspiracy theories as well as racist and sexist misinformation about her proliferated online. Much of this harassing dialogue recycled or built on earlier false claims spread about Harris. And the actions social media has already taken — or avoided — are stoking anxieties about the role of misinformation in the campaign to come.

[...]
