Malgorithm: How Instagram's algorithm publishes misinformation and hate to millions during a pandemic | Center for Countering Digital Hate

By Center for Countering Digital Hate

March 9, 2021

> Using real examples of posts recommended to users by Instagram, we expose how the platform's algorithm is publishing dangerous misinformation about Covid and vaccines in the midst of a pandemic, as well as QAnon and antisemitic conspiracy theories. We set out clear steps by which Instagram's owner, Facebook, can put people over profit, fix its broken algorithm and protect its users.
