

Malicious forces creating ‘perfect storm’ of coronavirus disinformation | The Guardian

By Peter Beaumont, Julian Borger, and Daniel Boffey

April 24, 2020

The coronavirus crisis has sparked a “perfect storm” of global online disinformation, cyber-espionage and disruption, involving up to a dozen states but most prominently [Russia](#) and China, experts have warned.

In the midst of a pandemic that has killed tens of thousands of people, analysts have witnessed a sharp rise in deliberate misinformation campaigns on social media, which have occurred in parallel with attempts to hack international organisations at the forefront of the coronavirus response.
