Opinion: Will you fall into the conspiracy theory rabbit hole? Take our quiz and find out. | Washington Post

By David Byler and Yan Wu

October 7, 2021

Who believes in conspiracy theories? Statistically speaking: almost everyone.

A [team of researchers recently showed](#) several thousand Americans a list of 20 common conspiracy theories and asked if they believed them. These included false conspiracy theories about the John F. Kennedy assassination, 5G cellular wireless technology, Barack Obama's birth certificate, covid-19 and climate change. The result: Nine in 10 Americans believed in at least one conspiracy theory.

[...]
