

# See how biased AI image models are for yourself with these new tools | MIT Technology Review

By Melissa Heikkilä

March 23, 2023

OpenAI and Stability.AI, the company that built Stable Diffusion, say that they have introduced fixes to mitigate the biases ingrained in their systems, such as [blocking certain prompts](#) that seem likely to generate offensive images. However, these new tools from Hugging Face show how limited these fixes are.

[...]
