Themes from the Truth and Trust Online Conference 2019 | MisinfoCon

By Amy X Zhang

November 13, 2019

> Given trends towards misinformation, weaponized communications, information overload, and polarization in our online information ecosystem, what are potential solutions for promoting truth and trust online? Over the course of two days in October, groups actively working in this space convened to present their findings and trade tips.
>
> Organized by a diversity of researchers and practitioners in industry, academia, and civil society, the inaugural conference on [Truth and Trust Online (TTO 2019)](#) sought to bring together people of different backgrounds to present actionable ideas towards solving our current information quality crisis.
