

Tracking Facebook's COVID-19 Misinformation 'Super-spreaders' | NewsGuard

By NewsGuard

April 21, 2020

As COVID-19 spreads around the world, NewsGuard has been tracking the [top hoaxes](#) about the pandemic that are spreading on the internet—and the [dozens of websites](#) that are publishing those false stories.

Today, we're introducing a new data set focused not on individual websites or false stories, but on the Facebook Pages that repeat, share, and amplify these myths — from false cures to conspiracy theories about the virus. We plan to release similar data for other platforms, such as Twitter and YouTube, in the coming weeks.

[...]
