

Vaccine misinformation poised to spike as Covid shots for kids roll out | NBC

By Brandy Zadrozny

November 4, 2021

Dr. Natasha Burgert is well aware of the concerns parents have about the Covid-19 vaccines.

The Kansas pediatrician, who is a spokesperson for the American Academy of Pediatrics, said she's already been counseling some parents about their fears. And she worries that they are entering a particularly sensitive time — one that anti-vaccination activists could exploit.

[...]
