

Wikipedia's Next Leader on Preventing Misinformation | The New York Times

By Davey Alba

September 28, 2021

Two decades ago, Wikipedia arrived on the scene as a quirky online project that aimed to crowdsource and document all of human knowledge and history in real time. Skeptics worried that much of the site would include unreliable information, and frequently pointed out mistakes.

But now, the online encyclopedia is often cited as a place that, on balance, helps combat false and misleading information spreading elsewhere.

[...]
